Matching Theory (North-Holland Mathematics Studies 121) L. Lovasz, M. D. Plummer

This study of matching theory deals with bipartite matching, network flows, and presents fundamental results for the non-bipartite case. It goes on to study elementary bipartite graphs and elementary graphs in general. Further discussed are 2-matchings, general matching problems as linear programs, the Edmonds Matching Algorithm (and other algorithmic approaches), f-factors and vertex packing.

From reader reviews:

Anthony Pippin:

Your reading sixth sense will not betray anyone, why because this Matching Theory (North-Holland Mathematics Studies 121) reserve written by well-known writer who really knows well how to make book that may be understand by anyone who else read the book. Written inside good manner for you, dripping every ideas and creating skill only for eliminate your own personal hunger then you still uncertainty Matching Theory (North-Holland Mathematics Studies 121) as good book but not only by the cover but also from the content. This is one e-book that can break don't ascertain book by its protect, so do you still needing one more sixth sense to pick that!? Oh come on your reading through sixth sense already told you so why you have to listening to yet another sixth sense.

Cynthia Hughes:

Reading a book for being new life style in this season; every people loves to study a book. When you study a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what types of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself look for a fiction books, these us novel, comics, and also soon. The Matching Theory (North-Holland Mathematics Studies 121) will give you new experience in reading through a book.

Maryanna Kuhns:

Is it a person who having spare time after that spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This Matching Theory (North-Holland Mathematics Studies 121) can be the respond to, oh how comes? It's a book you know. You are consequently out of date, spending your spare time by reading in this completely new era is common not a geek activity. So what these publications have than the others?

Linda Hill:

You can obtain this Matching Theory (North-Holland Mathematics Studies 121) by look at the bookstore or Mall. Just viewing or reviewing it might to be your solve challenge if you get difficulties for your knowledge. Kinds of this reserve are various. Not only by written or printed but also can you enjoy this book through e-book. In the modern era like now, you just looking because of your mobile phone and searching what your problem. Right now, choose your current ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose suitable ways for you.
