Provides direct access to the skills, insights and techniques of some of the postproduction industry's most prominent digital video colorists, delivering practical skills to the postproduction pro seeking to improve their color grading craft. The author interviews and observes 8 professional colorists as they grade a series of real world video images, describing the methods and techniques each artist uses to reach their finalized image. These video images are included on a DVD that allows you to work lockstep with each artist as they grade their images.

Though some tools provided may differ from one product to the next, the basic process of video color correction (grading) remains the same. Application agnostic and sure to inspire, The Art of Digital Video Color Correction will further your artistic skills, whether you're an editor, compositor, or colorist, and allow you to apply those skills to the grading process, making your finished image sharper, crisper and more aesthetically pleasing in general.
