## **Encyclopedia of Birth Control** Marian Rengel

The sociological, medical, and historical aspects of birth control in the twentieth century have been compiled in this unique, easy-to-use, and comprehensive resource. Objectively written and international in scope, this encyclopedia covers a variety of topics: biology and anatomy, birth control methods and devices, influential people and organizations, issues and debates, religious perspectives, legal issues, perspectives from other countries. The *Encyclopedia* is an excellent source for students and other researchers, educators, health care professionals, and perennially high-interest topic. For students, especially, the book will be invaluable for reports and term papers, speeches, and debates. The *Encyclopedia* contains more than 200 entries, a bibliography, and more than 50 photographs and charts. Entries end with a list of sources for further reading. Entries include
