Database and Expert Systems Applications: 10th International Conference, DEXA'99, Florence, Italy, August 30 - September 3, 1999, Proceedings (Lecture Notes in Computer Science)

The Database and Expert Systems Applications (DEXA) conferences bring together researchers and practitioners from all over the world to exchange ideas, experiences and opinions in a friendly and stimulating environment. The papers are at once a record of what has been achieved and the first steps towards shaping the future of information systems. DEXA covers a broad field, and all aspects of database, knowledge base and related technologies and their applications are represented. Once again there were a good number of submissions: 241 papers were submitted and of these the programme committee selected 103 to be presented. DEXA'99 took place in Florence and was the tenth conference in the series, following events in Vienna, Berlin, Valencia, Prague, Athens, London, Zurich, Toulouse and Vienna. The decade has seen many developments in the areas covered by DEXA, developments in which DEXA has played its part. I would like to express thanks to all the institutions which have actively supported and made possible this conference, namely: • University of Florence, Italy • IDG CNR, Italy • FAW – University of Linz, Austria • Austrian Computer Society • DEXA Association In addition, we must thank all the people who have contributed their time and effort to make the conference possible. Special thanks go to Maria Schweikert (Technical University of Vienna), M. Neubauer and G. Wagner (FAW, University of Linz). We must also thank all the members of the programme committee, whose careful reviews are important to the quality of the conference.

From reader reviews:

Mark Blanding:

Reading a guide tends to be new life style in this era globalization. With studying you can get a lot of information that will give you benefit in your life. With book everyone in this world can easily share their idea. Guides can also inspire a lot of people. Plenty of author can inspire their reader with their story or even their experience. Not only the storyline that share in the guides. But also they write about advantage about something that you need illustration. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors these days always try to improve their proficiency in writing, they also doing some analysis before they write on their book. One of them is this Database and Expert Systems Applications: 10th International Conference, DEXA'99, Florence, Italy, August 30 - September 3, 1999, Proceedings (Lecture Notes in Computer Science).

Elizabeth Frizzell:

The reason? Because this Database and Expert Systems Applications: 10th International Conference, DEXA'99, Florence, Italy, August 30 - September 3, 1999, Proceedings (Lecture Notes in Computer Science) is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will jolt you with the secret the idea inside. Reading this book adjacent to it was fantastic author who all write the book in such incredible way makes the content interior easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of positive aspects than the other book get such as help improving your skill and your critical thinking approach. So , still want to delay having that book? If I ended up you I will go to the book store hurriedly.

Bruce Jackson:

In this period globalization it is important to someone to acquire information. The information will make a professional understand the condition of the world. The fitness of the world makes the information quicker to share. You can find a lot of referrals to get information example: internet, magazine, book, and soon. You will observe that now, a lot of publisher that print many kinds of book. Often the book that recommended for you is Database and Expert Systems Applications: 10th International Conference, DEXA'99, Florence, Italy, August 30 - September 3, 1999, Proceedings (Lecture Notes in Computer Science) this reserve consist a lot of the information with the condition of this world now. That book was represented so why is the world has grown up. The language styles that writer use for explain it is easy to understand. Often the writer made some analysis when he makes this book. That is why this book ideal all of you.

Oscar Barr:

In this era which is the greater man or woman or who has ability to do something more are more treasured

than other. Do you want to become certainly one of it? It is just simple strategy to have that. What you must do is just spending your time very little but quite enough to possess a look at some books. Among the books in the top collection in your reading list is definitely Database and Expert Systems Applications: 10th International Conference, DEXA'99, Florence, Italy, August 30 - September 3, 1999, Proceedings (Lecture Notes in Computer Science). This book that is qualified as The Hungry Hillsides can get you closer in becoming precious person. By looking upwards and review this e-book you can get many advantages.
