This is the story of the American Army and its Soldiers during a critical period of Operation IRAQI FREEDOM—the 18 months following the topping of the Saddam Hussein regime in April 2003. On Point II: Transition to the New Campaign provides a contemporary historical account of the United States Army in Operation IRAQI FREEDOM from May 2003 through the Iraqi elections of January 2005. As its title indicates, the book depicts the transition of the Army from conventional combat to full spectrum operations in support of building a new, free Iraq. One of the great, and least understood, qualities of the United States Army is its culture of introspection and self-examination. American Soldiers, whether it is the squad leader conducting a hasty after action review of a training event or the senior leader studying great campaigns from the past, are part of a vibrant, learning organization. The CSI motto—The Past is Prologue—neatly captures the need for this study. Publishing the recent history of the United States Army’s operations is a key part of the TRADOC mission to develop adaptive, innovative leaders who are flexible, culturally astute experts in the art and science of the profession of arms, and who are able to quickly adapt to the contemporary operating environment. On Point II is a comprehensive, balanced, and honest account of the Army’s role in this particularly significant period in Operation IRAQI FREEDOM. It is neither triumphant nor defeatist. On Point II provides Soldiers and other military professionals with a means to understand important and relevant lessons from the Army’s recent operational experience. The story of the Army in this period of Operation IRAQI FREEDOM is one filled with many transitions, with many successes, and with significant challenges. On Point II is dedicated to the outstanding men and women of the United States Army who have sacrificed so much and who remain “on point for the Nation” in the defense of freedom at home and abroad.
