Cell Phones in the Classroom: A Practical Guide for Educators Liz Kolb

Bring student cell phones out of pockets and backpacks and into the learning environment. Students are walking around with incredible computing power. Their cell phones are calculators, internet browsers, video cameras, calendars, social media devices, and so much more. Why then are educators not taking advantage of these powerful, accessible, and engaging tools in the classroom? Luckily some teachers have started, and through their experiences, you too can learn how to use cell phones to broaden your students educational experience and increase motivation and engagement.

In *Cell Phones in the Classroom*, mobile learning enthusiast Liz Kolb starts out by sharing case studies that illustrate practical ways teachers and administrators from schools around the world are using cell phones for classroom projects, homework assignments, and communication with parents. She also includes resources such as sample lesson plans, tutorials for mobile-supported web 2.0 tools, strategies for involving students without cell phones, and guidance on planning and preparation. After reading through the case studies and lists of web 2.0 resources, you'll be overflowing with ideas for your own classroom.

The International Society for Technology in Education (ISTE) is the trusted source for professional development, knowledge generation, advocacy and leadership for innovation. ISTE is the premier membership association for educators and education leaders engaged in improving teaching and learning by advancing the effective use of technology in PK-12 and teacher education. Home of the National Educational Technology Standards (NETS), the Center for Applied Research in Educational Technology (CARET), and ISTE's annual conference (formerly known as the National Educational Computing Conference, or NECC), ISTE represents more than 100,000 professionals worldwide. We support our members with information, networking opportunities, and guidance as they face the challenge of transforming education.

Some of the areas in which we publish are:

- Web. 2.0 in the classroom-RSS, podcasts, and more
- National Educational Technology Standards (NETS)
- Professional development for educators and administrators
- Integrating technology into the classroom and curriculum
- Safe practices for the Internet and technology
- Educational technology for parents
