Handbook of Food Processing Equipment (Food Engineering Series)

George Saravacos, Athanasios E. Kostaropoulos

Handbook of Food Processing Equipment (Food Engineering Series) George Saravacos, Athanasios E. Kostaropoulos

This text covers the design of food processing equipment based on key unit operations, such as heating, cooling, and drying. In addition, mechanical processing operations such as separations, transport, storage, and packaging of food materials, as well as an introduction to food processes and food processing plants are discussed.

Handbook of Food Processing Equipment is an essential reference for food engineers and food technologists working in the food process industries, as well as for designers of process plants. The book also serves as a basic reference for food process engineering students.

The chapters cover engineering and economic issues for all important steps in food processing. This research is based on the physical properties of food, the analytical expressions of transport phenomena, and the description of typical equipment used in food processing. Illustrations that explain the structure and operation of industrial food processing equipment are presented.

The materials of construction and fabrication of food processing equipment are covered here, as well as the selection of the appropriate equipment for various food processing operations. Mechanical processing equipment such as size reduction, size enlargement, homogenization, and mixing are discussed. Mechanical separations equipment such as filters, centrifuges, presses, and solids/air systems, plus equipment for industrial food processing such as heat transfer, evaporation, dehydration, refrigeration, freezing, thermal processing, and dehydration, are presented. Equipment for novel food processes such as high pressure processing, are discussed. The appendices include conversion of units, selected thermophysical properties, plant utilities, and an extensive list of manufacturers and suppliers of food equipment.

From reader reviews:

Robert Goddard:

Have you spare time for the day? What do you do when you have far more or little spare time? That's why, you can choose the suitable activity with regard to spend your time. Any person spent their particular spare time to take a go walking, shopping, or went to the actual Mall. How about open or maybe read a book titled Handbook of Food Processing Equipment (Food Engineering Series)? Maybe it is for being best activity for you. You already know beside you can spend your time with the favorite's book, you can better than before. Do you agree with it has the opinion or you have some other opinion?

Kathryn Bowen:

This Handbook of Food Processing Equipment (Food Engineering Series) are reliable for you who want to become a successful person, why. The reason of this Handbook of Food Processing Equipment (Food Engineering Series) can be among the great books you must have is usually giving you more than just simple looking at food but feed you with information that probably will shock your prior knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions throughout the e-book and printed versions. Beside that this Handbook of Food Processing Equipment (Food Engineering Series) giving you an enormous of experience like rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day activity. So , let's have it and revel in reading.

Susan Douglas:

Playing with family in a park, coming to see the ocean world or hanging out with close friends is thing that usually you may have done when you have spare time, then why you don't try matter that really opposite from that. One particular activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Handbook of Food Processing Equipment (Food Engineering Series), you may enjoy both. It is very good combination right, you still would like to miss it? What kind of hang-out type is it? Oh occur its mind hangout people. What? Still don't understand it, oh come on its named reading friends.

Mary Otter:

A lot of reserve has printed but it differs. You can get it by world wide web on social media. You can choose the top book for you, science, comedy, novel, or whatever by simply searching from it. It is known as of book Handbook of Food Processing Equipment (Food Engineering Series). You'll be able to your knowledge by it. Without making the printed book, it might add your knowledge and make you happier to read. It is most essential that, you must aware about book. It can bring you from one spot to other place.
