The majority of bodyweight exercises can be progressed or broken into smaller movements in line with the individual's ability, and these progressions allow almost everyone of all levels of fitness to participate. Bodyweight exercises generally fall into 4 categories:

1. Push – where the individual has to use pushing movements to direct their body against gravity
2. Pull – which sees the individual using pulling movements towards the body
3. Core – which involves contracting movements of the back and abdominal muscles
4. Legs/Glutes – which involves movements of the legs and glutes to direct the individual's body against gravity

Exercise trends come and go and whilst these fitness fads appear and disappear one thing remains the same

and this is getting fit does not need to be complicated! With time being such a luxury in our ever increasing hectic lives the not so new fitness trend of bodyweight workouts has made another huge splash on the fitness scene.
