Gender Codes: Why Women Are Leaving Computing

Gender Codes: Why Women Are Leaving Computing

The computing profession faces a serious gender crisis. Today, fewer women enter computing than anytime in the past 25 years. This book provides an unprecedented look at the history of women and men in computing, detailing how the computing profession emerged and matured, and how the field became male coded. Women's experiences working in offices, education, libraries, programming, and government are examined for clues on how and where women succeeded—and where they struggled. It also provides a unique international dimension with studies examining the U.S., Great Britain, Germany, Norway, and Greece. Scholars in history, gender/women's studies, and science and technology studies, as well as department chairs and hiring directors will find this volume illuminating.

Do you want to try this extraordinary investing spare time activity?

Raymond Jackson:

Is it an individual who having spare time then spend it whole day by simply watching television programs or just resting on the bed? Do you need something new? This Gender Codes: Why Women Are Leaving Computing can be the solution, oh how comes? A book you know. You are and so out of date, spending your extra time by reading in this new era is common not a geek activity. So what these guides have than the others?

Lorraine Michael:

As a scholar exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some guide, they are complained. Just little students that has reading's soul or real their pastime. They just do what the professor want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that reading through is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Gender Codes: Why Women Are Leaving Computing can make you sense more interested to read.
