The Best of Times Lenalee N. Robinson

Sixteen year-old Lucy Nash and fellow teen time traveler Cameron Hall, whose own time is thirty years into Lucy's future, have successfully solved the mystery behind a series of child disappearances in Lucy's hometown during their trip back to the year 1975 (Time and Tide), but their actions have created a new timeline in which Cameron no longer exists. Traveling back to the year 1981 to redirect Cameron's grandmother's college plans and hopefully correct the timeline is a complicated enough task – but it's not the only one that they have to tackle as they learn that several of the children whom they rescued nearly six years earlier are now as teenagers once again in danger. As they try to accomplish both missions, they begin to learn some not always easy lessons about the responsibility of knowing the future and accepting what they can and cannot change. And perhaps the most complicated part of all is the difficulty of facing all of these issues while dealing with their own feelings for each other and the seeming impossibility of a romance between people from two different places in time.
