Did you know that:

- Growing fodder saves you money!
- You can replace up to two thirds of your hay and ALL of your grain by growing fodder.
- The benefits of feeding fodder include: better health, more energy, shinier coats and calmer animals.
- Fodder contains an abundance of nutrients.
- Fodder has been shown to increase the overall health of animals.
- Fodder is easily digestible.

This book teaches you how to grow fodder for your horse, chickens, goats, rabbits, alpacas, cows and more.

DIY Fodder System - Grow fodder fast and easy!

When I first started growing fodder, I searched for easy to follow instructions to set up my own fodder growing system. I didn't need a fodder system that would grow hundreds of pounds of fodder a day. I wasn't prepared to spend thousands of dollars for a fodder system that would give me far more fodder than I needed.

As I built my fodder system, I learned that there were many people just like me. People who simply wanted a small easy-to-build fodder system that would churn out fresh healthy fodder every day. People who needed pictures to help visualize. I have included pictures of each step of growing fodder for your animals.

Fast and Easy DIY Fodder System covers:

- Building your fodder racks
- Buying fodder supplies (on the cheap)
- Prepping your fodder seed
- Daily tasks (there aren't many)
- Harvesting your fodder
- How much fodder to feed
- Fodder growing tips

- Resources for more information

So, here it is. Step-by-step instructions to starting your own fodder system in a small space.
