Sundancing: The Art and Architecture of James Lambeth Richard Rapaport, James Lambeth
Anyone interested in the development of environmental architecture over the past twenty years and speculating on the future of our homes and cities will enjoy this book on James Lambeth's work. The designs are spirited, varied, and complex, showing incredible flexibility within the dictates of solar design. Lambeth is among the wittiest and most prophetic of the "new breed of solar architects" who emerged in the early seventies.
