How and Why Motorcycle Design and Technology Gaetano Cocco

Long awaited reprint of this "How to ride a bike" guide. It is meant for anyone who has never ridden a motorcycle, for enthusiasts who would like to know more on the function and behaviour of the main parts of the motorcycle, but also for hands and centaurs with years of experience and for well-informed technical experts who have plenty of know-how in the sector. Moreover, the reader will find a complete illustration of the main components of the motorcycle and their basic functioning, with lots of drawings and figures supported by technical concepts that have never been so thoroughly explained. In a word, this is a book for any two-wheeler enthusiast.
