Written in accessible, straightforward language, the book discusses and critically analyzes cutting-edge scholarship in the field. Organized into topics and concepts rather than discrete racial groups, the text addresses:

- \* How and when the idea of race was created and developed
- \* How structural racism has worked historically to reproduce inequality
- \* How we have a society rampant with racial inequality, even though most people do not consider themselves to be racist
- \* How race, class, and gender work together to create inequality and identities
- \* How immigration policy in the United States has been racialized
- \* How racial justice could be imagined and realized

Centrally focused on racial dynamics, *Race and Racisms*, Brief Edition also incorporates an intersectional perspective, discussing the intersections of racism, patriarchy, and capitalism.
