Foundations of 3D Graphics Programming: Using JOGL and Java3D

Jim X. Chen, Chunyang Chen

Foundations of 3D Graphics Programming: Using JOGL and Java3D Jim X. Chen, Chunyang Chen
OpenGL, which has been bound in C, is a seasoned graphics library for scientists and engineers. As we know, Java is a rapidly growing language becoming the de facto standard of Computer Science learning and application development platform as many undergraduate computer science programs are adopting Java in place of C/C++. Released by Sun Microsystems in June 2003, the recent OpenGL binding with Java, JOGL, provides students, scientists, and engineers a new venue of graphics learning, research, and applications.
Overview This book aims to be a shortcut to graphics theory and programming in JOGL. Specifically, it covers OpenGL programming in Java, using JOGL, along with concise computer graphics theories. It covers all graphics basics and several advanced topics without including some implementation details that are not necessary in graphics applications. It also covers some basic concepts in Java programming for C/C++ programmers. It is designed as a textbook for students who know programming basics already. It is an excellent shortcut to learn 3D graphics for scientists and engineers who understand Java programming. It is also a good reference for C/C++ graphics vi Preface programmers to learn Java and JOGL. This book is a companion to Guide to Graphics Software Tools (Springer-Verlag, New York, ISBN 0-387-95049-4), which covers a smaller graphics area with similar examples in C but has a comprehensive list of graphics software tools. Organization and Features This book concisely introduces graphics theory and programming in Java with JOGL.

From reader reviews:

Jennifer Rogers:

Reading a e-book tends to be new life style within this era globalization. With examining you can get a lot of information that will give you benefit in your life. Using book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or even their experience. Not only the storyline that share in the ebooks. But also they write about advantage about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors nowadays always try to improve their talent in writing, they also doing some study before they write for their book. One of them is this Foundations of 3D Graphics Programming: Using JOGL and Java3D.

Clarence Bowen:

Playing with family in a park, coming to see the sea world or hanging out with buddies is thing that usually you will have done when you have spare time, in that case why you don't try point that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Foundations of 3D Graphics Programming: Using JOGL and Java3D, you can enjoy both. It is very good combination right, you still would like to miss it? What kind of hangout type is it? Oh can occur its mind hangout guys. What? Still don't buy it, oh come on its called reading friends.

Eileen Vaughan:

You may get this Foundations of 3D Graphics Programming: Using JOGL and Java3D by go to the bookstore or Mall. Just simply viewing or reviewing it may to be your solve issue if you get difficulties for the knowledge. Kinds of this reserve are various. Not only simply by written or printed but in addition can you enjoy this book through e-book. In the modern era just like now, you just looking by your mobile phone and searching what your problem. Right now, choose your own ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose proper ways for you.

Marilyn Oxford:

Do you like reading a reserve? Confuse to looking for your best book? Or your book seemed to be rare? Why so many issue for the book? But any kind of people feel that they enjoy to get reading. Some people likes studying, not only science book but in addition novel and Foundations of 3D Graphics Programming: Using JOGL and Java3D as well as others sources were given knowledge for you. After you know how the good a book, you feel wish to read more and more. Science book was created for teacher as well as students especially. Those books are helping them to increase their knowledge. In various other case, beside science publication, any other book likes Foundations of 3D Graphics Programming: Using JOGL and Java3D to

make your spare time considerably more colorful. Many types of book like this.
